

# HEATHER S. ALDERMAN

PROJECT HYDROLOGIST/PROJECT MANAGER  
PARAGON CONSULTING GROUP, INC.

PARAGON

## PROFESSIONAL EXPERIENCE

Ms. Alderman is a junior partner with Paragon Consulting Group. She is a project hydrologist and project manager in Paragon Consulting Group's Denver and Fort Collins, Colorado offices. Her responsibilities include performing Phase I Environmental Site Assessments, performing compliance reviews, planning and performing subsurface site assessments, performing water quality studies and permitting, and analysis of field data.

Ms. Alderman is experienced as a project manager on a variety of environmental projects involving due diligence. Ms. Alderman has extensive experience in the project management of pre-purchase site assessments, contaminant assessments, and environmental compliance.

Ms. Alderman has worked as a project hydrologist and provided technical support on projects involving underground/aboveground storage tanks (USTs)/(ASTs). Her storage tank experience includes assessment and remediation of hydrocarbon releases in a variety of geologic settings as well storage tank compliance with Federal and State regulations. Ms. Alderman has also performed Phase I Environmental Site Assessments and compliance reviews. On these projects, she was responsible for tasks including:

- Planning and conducting site assessments;
- Interpretation of field data; and
- Preparation of reports.

Prior to joining Paragon, Ms. Alderman worked at an environmental research firm as well as various government agencies. She participated in projects involving Phase I Environmental Site Assessments; soil and groundwater assessments; water quality; and environmental impact studies.
